

Dear PECO Customer:

At PECO, we are committed to providing safe and reliable energy service for our customers and the communities we serve. As part of that commitment, we are replacing our existing natural gas equipment to enhance service in your neighborhood. This includes installing new underground pipe which is more durable, enhances safety and improves service reliability.

- **Work is expected to begin the week of 6/8/20 on Newtown Street Rd between Reese Ave and Alpha Dr**
- **This project work may occur in roadways as well as on sidewalks and potentially on your property.**
- **We anticipate the natural gas main and service line installation portion of this project will be completed in 2 months.**
- **To ensure your safety and the safety of our crews, we may need to temporarily shut off natural gas service for a short period – approximately 4 to 8 hours – while we install the new service line to your home.**

After completing the natural gas main installation on your street, and we will begin upgrading services outside your home. At that time, we will **not** need access to the natural gas appliances or equipment inside your home, until directed otherwise. Only necessary outside work will be completed to begin upgrading your service line. In order to complete the future work, we will contact you directly to [schedule for a later date](#).

**This work will be performed by Utility Line Services, a qualified PECO contractor. If you have any questions regarding this project and for scheduling purposes, please contact Rich Brunner of Utility Line Services at 215-430-1503.**

Any areas impacted on your property will be repaired, the streets will be repaved, and all areas will be restored to their original condition.

If you are not currently using natural gas and are interested in learning more about the conversion process, please call 866-685-5665.

We will work to minimize the impact this project will have on you and your neighbors and thank you for your cooperation. If you have any other questions about this work please call 610-832-6420 or email [GasWorkInquiries@exeloncorp.com](mailto:GasWorkInquiries@exeloncorp.com).

Sincerely,

PECO Gas Operations
