

Sorry we missed you

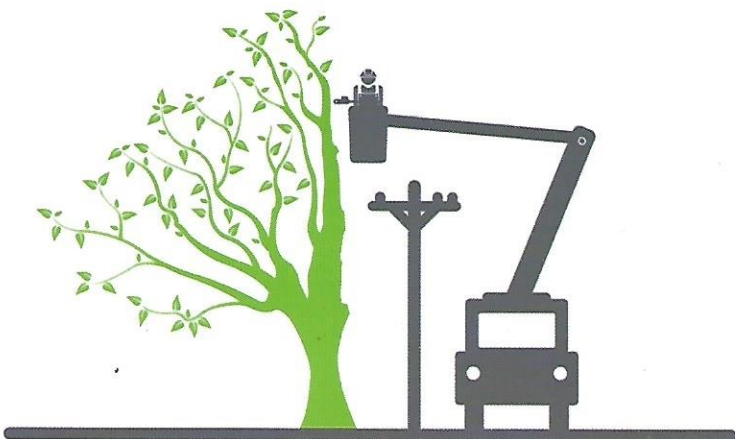

As part of our ongoing effort to provide safe and reliable electric service, a Vegetation Management Representative was on-site today to evaluate vegetation growth around power lines and equipment. The results of our visit are indicated on the back of this card.

Regarding our visit:

- Our crews will work to clear interfering trees and/or vegetation from PECO lines and equipment.
- Not an emergency. This work will be performed during our routine maintenance schedule. Work in your area is currently scheduled for _____
- Crews will need to remove a tree to ensure safe and reliable service. Please see attached form for information.
- PECO lines and equipment are clear. We do not prune around telephone or cable TV wires.
- Customer Responsibility: PECO does not remove trees or trim branches around the wires coming into your home. To schedule a free weekday wire disconnection for your tree contractor, please call 1-800-454-4100, and select option 3; or go to PECO.com and select Construction Safety under the Safety & Community tab to submit a Service Request to "Make Work Site Safe".
