**Date:**

Dear Valued Customer:

PECO's Vegetation Management department is performing tree trimming work in your area. This work reduces the amount of outages caused by trees and other vegetation and ensures safe and reliable electric service for all of our customers. In addition to tree trimming, it may be necessary to remove unhealthy trees that could potentially come in contact with our electrical equipment. There is no charge for this additional work. However, we must ensure you are aware that this additional work will take place on your property.

Please read and sign this notification and send the form back to us via email or call to have the form picked up and speak with a representative during this visit.

Thank you.

**Please read, sign, and return this notification.**
